PROFILE

React Js Developer By Designation | Full Stack Developer By Interest

A results-driven and detail-oriented Front-end developer with 2 years of hands-on experience in building dynamic and responsive web applications using the React.js library. My journey in the world of web development has been marked by a relentless pursuit of excellence and a commitment to staying abreast of the latest industry trends.

WORK EXPERIENCE

Associate Engineer (E-commerce Project)

Tata Consultancy Services Feb' 2022 - Mar' 2023

- Provided support to both the front-end and the back-end teams and created some functionalities like Filter options, Pagination, Password Strength checker, etc. (90% on the front end with React).
- Debugged failures, identify bugs, and update the code to fix them for smooth running of the application.
- Worked closely with the frontend team and managed the UI using HTML, CSS, JavaScript, and also the responsiveness of the application leading to 95-100% efficiency.
- Collaborated with the team members for daily sprint planning and discussion.

Frontend Developer (Company's Website)

gradUp (<https://www.gradup.in>) Jun' 2023 - Aug' 2023

- Developed the Frontend User Interface of the website by using Next JS, Tailwind CSS, and Material UI.
- Integrated data from various back-end services, enhancing the user experience.
- Optimized website load times by implementing code reduction, lazy loading, compressing images, and other techniques resulting in a 40% increase in page speed.
- Developed Responsive designs for mobile and desktop views, resulting in a 25% increase in traffic;

Software Developer (Arcadium - Game Event Application)

Fastlane Devs (www.fastlanedevs.com) Nov' 2023 - Present

- Developed the Frontend User Interface of an event-based application by using React JS, Javascript, HTML, and Chakra UI
- Integrated data from various back-end services using GraphQL, enhancing the user experience.
- Worked with Cypress to build e2e test cases for each functionality of the application and also optimized the code for better efficiency.
- Developed responsive designs for mobile and desktop views, resulting in a 35% increase in traffic;
- Participated actively in Client meetings and daily scrum calls to understand the requirements better.
